

Date: 24-Aug-2014

**To whom it may concern**

This is to certify that Mr. ZAKARIA RAMMAL of KC Engineering has acted as Technical Consultant from March 2010 to December 2010 for GASAL's 33kV Power Cable project from KAHRAMAA Substation KM RL-2 to GASAL substation up to its HV / MV transformer.

GASAL Q.S.C. is a joint venture between Air Liquide, Qatar Petroleum and Qatar Industrial Manufacturing Company and is providing industrial gases to the steel, oil, gas and chemical downstream industries in Qatar and Gulf area.

Mr. RAMMAL was responsible for the review of the related FEED, critical design, Construction, commissioning and energizing of the line as well as a coordinator between the contractors (CEGELEC, SIEMENS and AREVA) and the local authorities (KAHRAMAA) from the other side.

Yours faithfully,

Maurice Atieh  
Project Manager  
GASAL Q.S.C.
