To Whom It May Concern

This is to certify that KC Engineering Lebanon along with Engineer Zakaria Rammal have engineered, procured, installed, commissioned and put in service the following equipment:

- 1- 33 kV S/S with Switchgears and Load break Switches.
- 2- 11 kV switchgears, each containing many breakers (total number of 4 switchgears, with 22 breakers)
- 3- One 5 MVA transformer on load tap changer along with its protection and control
- 4- Three 2.5 MVA transformers on load tap changer along with their protection and control.
- 5- Many offload transformers of 2.5 MVA
- 6- Many 33 kV load break switches
- 7- Battery chargers and batteries for the power supply of the protection and control circuits.

KC Engineering has proved its professionalism all the duration of the projects that were executed in 2008, 2010, 2012, 2013 and 2014.

Sincerely yours,

Hassan Hammoud
